

NEW IN 2024

FILTER MAX

Filtration group with polymer filtering balls

- 3 microns **ultra fine filtration**
- Ultra silent
- **4,8m³/h flow** at **10m³/h** for a swimming pool up to **75m³**
- **80W** to **400W ultra silent** pump with prefilter
- Removable filtering basket + polymer filtering balls included
- Compatible all above ground, wood and semi-inground swimming pools
- Universal connectors included compatible with all brands (Ø32mm and Ø38mm...)
- Reinforced tank + pressure gauge + T purge

WARRANTY **2**
YEARS

	Filter Max 4.8	Filter Max 6.8	Filter Max 8	Filter Max 10
Filtration speed	4.8 m ³ /h	6.8 m ³ /h	8 m ³ /h	10 m ³ /h
Pool volume	< 30m ³	< 42m ³	< 60m ³	< 75m ³

Do you find your swimming pool difficult to maintain and energy-consuming?

The Filtermax filter group with its new polymer filtering ball technology reduces your electricity and water consumption. Pre-filter, filter pump and filter tank form a single, ultra-practical unit for pool maintenance. Thanks to low-pressure operation, the water is better filtered, acoustic pressure is greatly reduced and there is no pressure drop.

Lighter and easier to transport: 650g of polymer filtering balls are equivalent to using 55kg of sand for a flow rate of 10m³/h.

FILTER FINENESS

Polymer filtering balls **3 MICRONS** ≠ Sand **40 MICRONS**

✓ ECO-FRIENDLY

Le Filtermax a new patented technology using an **extremely light basket of polymer ultra-filtering balls**.

With this filtration group, **backwashing become unnecessary**. Simply remove the basket containing the polymer filtering balls and clean it with a jet of water. Pool water is no longer wasted down the drain with each wash.

✓ UNIVERSAL

With its 32 and 38 mm universal connectors, Filtermax is **compatible with all the major brands of above-ground and semi-underground pools up to 75m³**, which require their own connection system.

Thanks to its low-pressure **operation** which avoids any loss of pressure, the filtration pump retains all its power and can operate a hydraulic pool cleaner. The water in your pool is filtered and the pool is cleaned.

✓ PRACTICAL-SIMPLE-QUICK

The Filtermax filter group is quick to install thanks to a finely-designed, intuitive assembly system that **requires no tools**.

All the installation components are supplied with the unit. Right down to the O-rings, which eliminate the need for Teflon. The polymer filtering balls are contained within the basket space for easy removal and cleaning.

✓ MAXIMUM PERFORMANCE AND DURABILITY

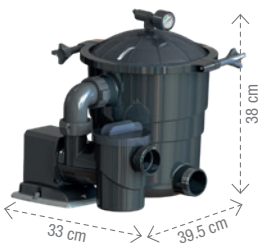

Filtration quality is optimised thanks to the basket that holds and keeps the polymer filtering balls in place.

The tank is treated to **resist to UV rays** and external elements. When winter comes, this “one-piece, light-weight” filtration unit is easily dismantled and stored.

COMPACT DIMENSIONS

4.8m³/h - 6.8m³/h

8m³/h - 10m³/h

	Filter Max 4.8	Filter Max 6.8	Filter Max 8	Filter Max 10
Filtration speed	4.8 m ³ /h	6.8 m ³ /h	8 m ³ /h	10 m ³ /h
Filter fineness	3 microns			
Pool volume	< 30m ³	< 42m ³	< 60m ³	< 75m ³
Quantity of polymer filtering balls included	250 g		650 g	
Tank diameter	Ø250mm		Ø400mm	
Pump power	80 W	140 W	250 W	400 W
Power supply	230V-50 Hz			
Power cable length	5 meters			
Carbon bow dimensions	29 x 29 x 42 cm		44 x 44 x 53 cm	
Gross/Net weight	6.3 / 5.6 kg		12.5 / 12.1 kg	
Warranty	2 years
